

Toto C&E Ltd

CEO's Statement

Welcome to Toto C&E Ltd.

It is my pleasure to welcome you to our company and to share our vision for building a cleaner, more sustainable, and more inclusive future for South Africa.

Toto C&E Ltd was established with a clear purpose: to transform environmental challenges into economic opportunities through innovation, entrepreneurship, and responsible industrial development. We believe that waste is not simply something to be discarded—it is a valuable resource that can drive economic growth, create employment, and contribute to a more resilient and sustainable economy.

Our flagship initiative, the commercial production of biodiesel from used cooking oil, reflects our commitment to advancing the circular economy while supporting South Africa's energy security and climate objectives. By converting waste into renewable fuel, we aim to reduce environmental pollution, lower greenhouse gas emissions, and create meaningful opportunities for local businesses and communities.

At TCE, we believe that true success is measured not only by financial performance but also by the positive impact we create for society. We are committed to developing projects that promote industrialisation, support black-owned enterprises, empower youth and women, strengthen local supply chains, and contribute to inclusive economic growth.

We also recognise that ambitious projects are achieved through collaboration. We value strong partnerships with government, investors, financial institutions, technology providers, academic institutions, customers, and communities. Together, we can accelerate South Africa's transition to a greener economy while creating sustainable value for future generations.

Integrity, accountability, innovation, safety, and environmental stewardship are the principles that guide every decision we make. These values underpin our commitment to operational excellence and to delivering products and services that meet the highest standards of quality and reliability.

As we continue to grow, our vision remains bold: to become one of Africa's leading producers of renewable fuels and a recognised leader in the circular economy. We are building a business that not only serves today's energy needs but also contributes to a more prosperous and sustainable future.

I invite you to explore our website, learn more about our projects, and discover opportunities to partner with us on this exciting journey. Whether you are an investor, customer, supplier, policymaker, or community stakeholder, your support and collaboration are invaluable to achieving our shared vision.

Thank you for your interest in Toto C&E Ltd. We look forward to working together to transform waste into opportunity, innovation into progress, and ambition into lasting impact.

Julius Mbenyana
